SUBJECT :

Release of Information as SECRET Only

1. It is requested that your office examine the information from the sources cited, to determine whether or not it may be released as SECRET only in a forthcoming CIA/RR-GR report, Urban Study: Burgas, Bulgaria (Project 63.1342). Although these sources are classified Confidential, the finished project will be SECRET.

From [REDACTED] Confidential/US Officials Only,  
"Burgas receives its water supply from three sources: thermal springs approximately 9 miles northwest of the city; a well approximately 10 miles north of the city; and from two recently discovered underground rivers located some 3 miles west of the thermal springs. The water from all three sources is piped to a reservoir located 3 miles north of the city where it is mixed and cooled and then piped through gravity mains to Burgas. With the addition of the third source of supply the acute water shortage which plagued the city for years has, reportedly, been removed and there is now sufficient water at all seasons."

25X1A

From [REDACTED] Confidential/US Officials Only,  
"Information available on the street numbering system is unconfirmed; however, it appears that north-south streets are numbered from the waterfront northward; the east-west streets located south of Vozrazhidane Circle are numbered eastward and westward from "1 May" Street (formerly Alexandrovska), and those located north of the circle are numbered eastward and westward from P. R. Slaveykov Street. An exception to the general rule is that east-west streets in the new section of Tolbukhin Boulevard are numbered from Tolbukhin Boulevard eastward and have an "A" appended to the numerical designation."

From [REDACTED] Confidential/NOFORN/  
Continued Control, "Foreign visitors are required to report  
to a militia station for registration and to procure a temporary  
residence permit for the specific locality. All movements out-  
side the confines of the stated locality are restricted unless a  
special permit is obtained from the militia. At the end of his  
temporary residence the individual must again report to the  
militia station, and if leaving the country, an exit visa must be  
procured from Militia Headquarters in Sofia."

2. If this information is approved for release as SECRET only,  
these sources will be removed before the finished report is disseminated  
to any foreign government.
